PROFESSIONAL SUMMARY

Artificial Intelligence and Data Science student with strong interest in Python development, machine learning, and data analytics. Skilled in building software solutions and continuously improving technical knowledge through real-world projects and open-source development.

EDUCATION

Degree / Examination	Course / Specialization	Institution	CGPA / Percentage	Year
B.Tech	Artificial Intelligence and Data Science	Takshashila University	8.11 (CGPA)	2023 – 2027
Class XII	Science (PCM)	V.K.M Vidhyalaya CBSE School	63.2%	2023
Class X	General	V.K.M Vidhyalaya CBSE School	68.2%	2021

PROJECTS

- Quantixa – Scientific Python Library (Published on PyPI)**
Developed and published a scientific and mathematical Python library on PyPI.
Implemented modules for arithmetic, statistics, geometry, and matrix operations.
Features include matrix multiplication, transpose, mean, variance, standard deviation, factorial, and more.
Built with clean, modular architecture and professional packaging standards.
Published for public use:
 - pip install quantixa
 - PyPI: pypi.org/project/quantixa/0.1.0/
- Early Disease Prediction**
Developed a machine learning model to predict early-stage diseases based on patient symptoms and health indicators.
Implemented Explainable AI (XAI) techniques to provide insights into prediction results and explain the factors contributing to disease identification.
- Spam Message Detection (Mini Project)**
Created a machine learning model to classify messages as spam or ham using Natural Language Processing techniques.
- Travell Buddy – Tourism Website for Tamil Nadu**
Developed a responsive website that helps users explore tourist destinations across Tamil Nadu.
Integrated features such as destination information, categories, attraction details, location maps, and contact details to provide a seamless travel experience.

TECHNICAL SKILLS

Programming Language	: Python
Machine Learning	: Basics of Machine Learning Concepts
Data Analysis	: Data Cleaning, EDA, Statistical Analysis
Tools & Libraries	: Pandas, NumPy, Matplotlib, Scikit-learn
Databases	: SQL (Basics)
Data Visualization	: Power BI, Excel Charts, Matplotlib, Seaborn
Office Tools	: MS Excel (Advanced), MS PowerPoint, MS Word

CERTIFICATIONS

- Introduction to OpenAI GPT Models – Infosys Springboard
- Google Ads for Beginners – Coursera Project Network
- SQL and Relational Databases 101 – Cognitive Class (IBM)
- Data Analysis with Python – Cognitive Class (IBM)
- Machine Learning with Python – Cognitive Class (IBM)
- Python 101 for Data Science – Cognitive Class (IBM)
- Android Developer Virtual Internship – Google for Developers (AICTE – EduSkills)

SOFT SKILLS

Problem-Solving | Communication Skills | Team Collaboration | Adaptability | Time Management

ACHIEVEMENTS

- Successfully published “Quantixa” Python library on PyPI.
- Actively participated in technical workshops and seminars.
- Strong problem solver with a keen interest in data-driven solutions.
- Built and maintained an open-source Python library that can be installed and used by anyone worldwide.

LANGUAGES

- English
- Tamil
